TESTIMONIAL

On behalf of Orijen, I would like to express my great appreciation for the work undertaken by Ted Doraisamy.

Orijen initially contacted Ted for business advice, but with his skilful questioning and depth of understanding of business, he was able to lead us through a most worthwhile and successful Strategy Workshop.

Thanks to Ted's excellent facilitation we clarified our competencies, identified the critical success factors, and developed objectives and strategies for each. Taking the time-out was of major benefit and enabled us to achieve some real and long standing changes in both our structure and our focus, and the strategies we developed are still in place.

The process was so successful we aim to repeat it annually and would recommend any business to do the same.

Jennifer Morris
Managing Director
