

26 June 2006

Ted Doraisamy came highly recommended to terra cordis through past Clients of ours. We needed some assistance with our companies' strategic direction and had heard that Ted would be the best for the job.

The process that Ted took us through was a Facilitated 3 step one. The first looked back at recent history and clarified competencies, the second step was to identify the business pillars/critical success factors, and the third was to develop strategies for each.

Where terra cordis is now would definitely be linked to the time and work we had done with Ted as he was able to give us a nice solid grounding from which to grow the business.

A lot of the success of the process that Ted took us through was due to his understanding of our business and the models that we were applying. This made it much easier for us to at terra cordis to achieve the goals that both us and Ted set.

Another reason for the success of our sessions with Ted can be drawn from his easy going but directed facilitation style. As we are a training organisation it was a tremendous advantage for us to work with someone who is very innovative in his delivery and the tools that he uses. His approach appealed to all our different learning styles which helped to facilitate his ideas.

We can see great advantages in working with Ted and Imstrat as they provide the skills that are needed to produced quality outcomes for your needs. Ted is able to apply himself to your situation and see where the best direction is for your business.

We can highly recommend Ted Doraisamy and Imstrat to your company be it from 5 to 25 people or from 5 to 25 years old. He is able to apply the skills he has learnt and develop results that will be both personalised to your business and have the outcomes that you are looking for.
